This was the last interview I got back so I'm putting it in first, ho ho. Thanx to Sned..... Is there a main theme to your work? "It depends on what you mean by theme-we don't concentrate on specific topics, but then again, we do have an aim of prompting awareness and communicating successfully our thoughts & ideas to others. i.e. you may not agree with what we say as long as your thinking for yourself....." Do you think you have progressed since you first started? "Yes, its important to keep changing stuff round, other wise it would become really stagnant. We've improved musically & the lyrics cover more now-origionally they were mainly about war. Somepeople may not like

what were doing now who liked the old stuff but thats how it goes, there would no point in doing stuff thats old & out of date just to keep people happy." Whats planned for the future? "We've recorded a flexi-disc with Reality Control-which should be out now from Volume or 40p + big sae from c/o 42 Bede Burn Road, Jarrow, Tyne & Wear. We'll be doing a 2nd demo in October with new stuff on. "You fuel the fir..." is now deleted as it isn't representative any more. We also plan to dismantle the entire system of oppression that looms over us all-brick by brick. I also plan to go to the pub tomorrow night + Andys coming round in the afternoon. A cup of coffeee is in the pipeline too." How come you played with the Alternative (not to be taken literally!) at the station? "One of the bands coming down from Scotlnd (Societys Victims) couldn't make it so we stepped in at the last minute. It was a mistake playing at the station cos weve played there so often before." Anything else to add??? "Yes, 2+2 is 5 and black is white, its 1984 go for it!!!!" (I'm affraid I had to cut down this interview sh I could fit it in at all.)

ZINES.. PRISONER OF CHARITY from Chris, 22 Burnside, Broughton, Brigg, Sth. Humbs. DN20 OHT Lots of stuff in it so buy it now, 25p + SAE... FINAL CURTAIN 11 from Paul, 13 maycroft Ave, Grays, Essex. # Political Asylum

I sent Ramsey the following questions and he very quickly returned them with some great answers and I would recommend you buying the two demos P.A. have available. For details read on....

T.B. When and why did you form, current line-up and brief history.

RAMSEY: Political Asylum were formed as Distraught by Ramsey & Cheesey (or Stephen as he likes to be called now-), basically we had a desire to play & perform what we considered to be good music, and to use it to air our views on a few subjects. Past history is not all that important, as we were mainly recruiting bass players & drummers (we've had 6 of each). However we now have a stable line up (Ramsey & Stephen on vocals & guitar respectively, Norman on bass & Tam on drums-), & we are starting to do something at last, in the form of gigs (the new line up has played about 8 in 4 or 5 months as compared with 3 from the other line ups in 2 years), and our new demo, so things are looking up.

T.B. What things have you available?

RAMSEY: At the moment we have 2 demos available, and some live tapes. Firstly FRESH HATE our first studio demo (15 tracks, 55 mins). is still available for £1.25 + SAE and we have finished our new demo, Valium For The Masses. This contains 6 new studio tracks lasting just under 25 mins, AND live versions of 11 of the songs on Fresh Hate (all that we still do live), so there is once again a full 60 mins of music on our demo. Valium comes on a TDK tape and costs £1.50 + SAE. Both demos come with A4 covers + lyrics to all the songs. If anyone would like a live tape, just send a decent quality blank tape and sae to ramsey at the address at the end. (Same address for demos).

T.B. Have you done many gigs outside your area?

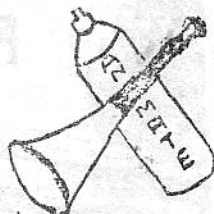

RAMSEY: No we haven't, Sunderland was our first outside of Scotland, outside of the Stirling area we have only played in the Edinburgh area. However we are organising gigs in other places in Scotland. The main problem at the moment about gigs is we have no transport, so we have to go on the bus to gigs, which is expensive. If anyone could offer us gigs, please get in touch, we'll play anywhere for the bus fares.

T.B. What was the gig like in Sunderland at the Bunker as I sadly missed it?

RAMSEY: Tut, tut, missed the gig eh, well I'm not sure I should tell you then. Seriously tho', it was quite good, but it could've been a lot better. The Bunker is a great place, and we found the audience really friendly. We played alright I suppose and everyone seemed to be enjoying themselves, when after 6 songs Tam broke the skin to his bass drum. However, we decided to make do without it, but after one more song, some one knocked over the beer on Cheesey's guitar amp which promptly responded (the amp that is!) by blowing... and that was the end of the set. However as I said folk seemed to enjoy what they heard of us, and we really enjoyed ourselves. You've got a great place there, so take care of it.

# FRESH HATE

POLITICAL

ASYLUM

CONTINUED...

T.B. How well has fresh hate sold ?

R. Fresh HATE has sold about 500 at a guess which i suppose is pretty good, but we still need to sell a lot more to get our money back on the studio costs of £200.

T.B. How much did it cost to record ?

R. See 5. Valium cost us even more than Fresh Hate, Cos we had to pay for rehearsals in the studio before we recorded the tape, and also our train fares out to Edinburgh for the 6 or 7 times we went into the studios.

T.B. WHAT IS THE NEW TAPES CALLED, WHAT IS ON IT ?

R. See 2.

T.B. Have you had much response to Fresh Hate ?

R. Yes, surprisingly, and it is very gratifying. Every person that has told us what they thought of the tape has liked it (though I suppose if they thought it was shit, they might not bother to write back), and folk generally seem to like it. So if they liked Fresh Hate I reckon they should love valium cos in my opinion it is much better !!!

T.B. What is 'Oxford St 48' about ?

R. This relates what happened after the CND rally in Hyde park on the 6th of June 1982. About 500 assorted punks/anarchists decided to break away from the official demo and try to do something different. They were marching down Oxford St when they were attacked by the SPG who arrested 48 of them (most were subsequently acquitted as the police prosecution was so obviously lying and contradictory in most cases-) The song questions the role of the police. Aren't they supposedly in a democratic society there to protect free speech and not to stop it ?

T.B. Some of your songs are on a more personal level, do you think this works well ?

R. As far as I know, yes. I mean, anyone should be able to relate to Winter of Our Discontent (I don't wanna die) or Do They Care (well, do they ?), even though they are written from a personal point of view. No, I don't see that because songs are on a personal level they should inhibit the message. They aren't that personal or I wouldn't be singing about them !!!

T.B. 'Autonomous Youth' is a pretty strong song. What ideas could you suggest people do to escape 'labels' and manipulation by the media ?

R. It's not really up to me to suggest anything. Following what I say blindly (as if anyone would !) is no better than following anyone else. Just think for yourself. Don't follow anyone/trend but yourself. Be your self, its all been said before. Unity is strength, but there is a difference between a collection of like minded people and a bunch of cloned sheep. You can't manipulate individuals, but you can't manipulate movements.

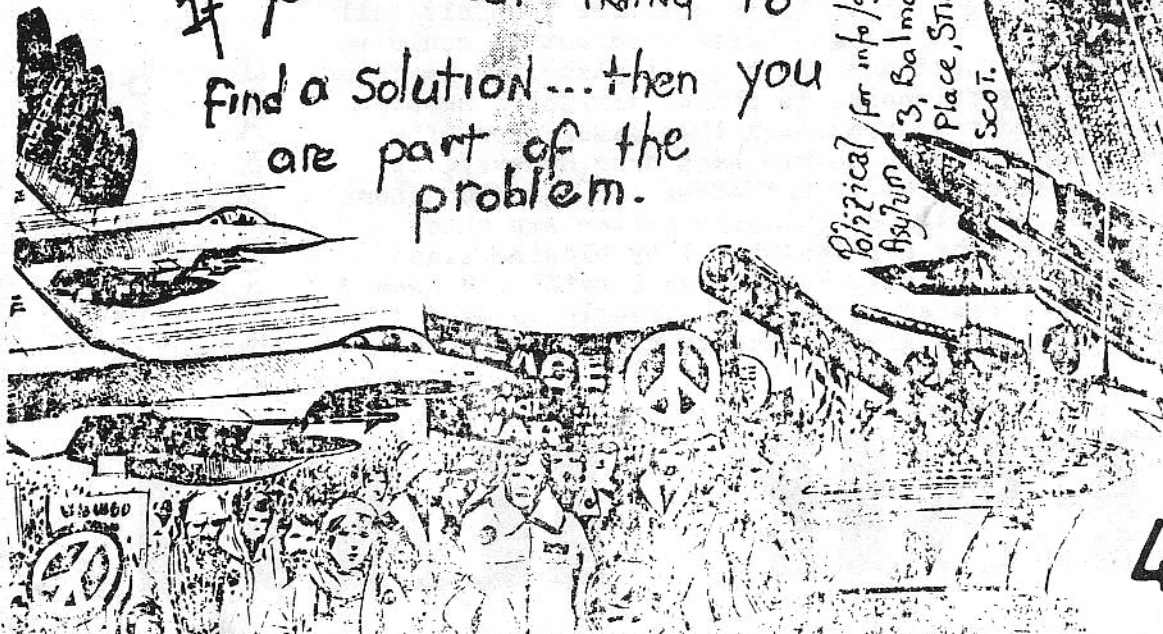

T.B. Do you think anything will ever change ? What do you think of Racism and General harassment within the police force ?

R. Well in answer to your first question, I bloody hope so ! I think (hope) that things are changing slowly, folk are beginning to realise that it is not milk & honey. Witness the recent resurgence of CND. Now a lot of folk quite

rightly slag off CND, but it has to be remembered that for many people going on a CND march or whatever is a big step, the first time that a lot of people, middle class housewives.....

 Well i suppose it isn't

 is so widespread you  
 letting slip words like  
 police force is a farce.

tb. Could you explain what'the slaughter'is about ??

R.'THE SLAUGHTER' is about thought control, or rather the weight of normality.You  
 get all these teenagers on CND rallies etc, 'Celebrate this madness with another  
 demonstration', full of enthusiasm and a desire to get things changed 'you want  
 to rebel,you want to shake the world ',but then,as nothing happens,it all gets  
 washed away and is crushed by the 'normal adult' world.'the cause is washed away'  
 Soon all the teenage rebels will become part of the 'normal' world.There minds  
 tottaly in tune with normality,'mutilate your being into another one of them'.  
 Gone will be there desire to see things changed 'now there's no expression,the  
 slaughterhouse succeeds'.The slaughterhouse in the song is the proccess of  
 'slaughtering' these minds and changing them into the adult clones all around us.  
 I mean,where are all the teenagers whowent on the first CND marches,or all the  
 hippies (one hippy is my biology teacher-Sime.) where is all the protest from  
 them now they are adults - there is none,more victims from the slaughterhouse  
 of adult hood.

T.B.'DO THEY CARE' has a nice happy tune to it.Was this intentional so more people  
 would listen ??

R. I didn't set out to make it a deliberately happy tune,I just thought it was good  
 music when i wrote it.Basically we just compose the music we like and hopefully  
 what lots of other folk like and thus listen to.We never set out to compose and  
 write 'happy' music,or commercial music,or whatever its just what we like playing

STEVE.No,we just liked the tune that we composed and as with our other songs we fitted  
 the lyrics to it.

T.B.Do you think anarchy could bring about a perfect world if everyone worked togeth  
 er for peace,trust and friendship ???

R.No,obviously not.You are never going to get a perfect world,people are only human  
 after all,but if eveyone did generally work for peace and trust peace and the  
 like then we would get the nearest to perfection that we are capable of methinks.

STEVE.If everybdy worked together for peace trust & friendship then anarchy could  
 work and bring about a perfect world,but I don't think EVERYBODY would work  
 together so the 'STATE OF ANARCHY' would fall apart.

T.B.Are the band as active in practise as they are in the words ??????????????????????

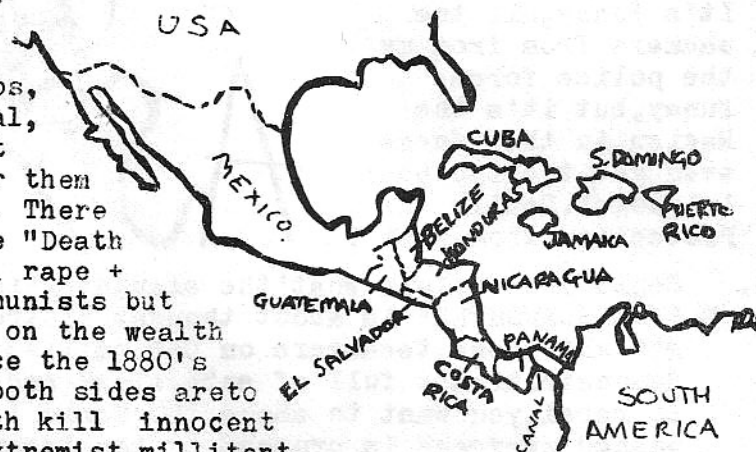

R.If you mean do we practise what we preach then yeah we are.As a band we contribu  
 te to what we believe in (apart from spreading the word via the lyrics) by play  
 ing benefits for such organisations as Womens Aid CND and individually  
 were members of CND BUAV and the PDSA. Myself & Norman are vegetarians (were  
 working on the other two !!)and generally,yeah,I think we do practise what we  
 preac. STEVE . Yes,all the band are anti-war and pacifists. We have a couple  
 of meat-eating songs and Ramsey & Norman are vegetarians -I am not.So in a way  
 I do not practise what i preach-although it is ramsey that is actually 'praching'  
 I provide the musical backing.

T.B.ANY THING ELSE TO SAY ?

R.BUY our demos if you haven't cos they are excellent and more to the point were  
 about £300 in debt! Thanks very much for the interview,some excellent questions  
 which i enjoyed answering.Thanks & hello to every one we know/write to/helps us/  
 buys the demos and comes to the gigs.you know who you are.....THANKS.

# AMERICA'S BACKYARD

El Salvador and neighbouring countries such as Guatemala, Honduras & Nicaragua have been given the name 'America's Back Yard'. The many battles which rage there between El Salvador + Guatemalas troops supported by America against various guerilla groups, are very mixed up and complicated. As usual, the people who suffer are the poor, innocent villagers and townsfolk. It isn't safe for them to leave their houses especially at night. There is a constant fear of being stopped by the "Death Squads" who are ruthless troops who kill, rape + torture. The war is supposedly against communists but I think its so America can keep its hands on the wealth in those countrys which has sprouted since the 1880's international coffee boom. The troops of both sides are to blame for the atrocities because they both kill innocent people. The Death squads are members of extremist militant groups. There have been reports of soldiers from the Guatemalan army going out with orders to kill people. They have a list of names on a card and then they find these people and sometimes they have direct orders to kill. Then they come back, change clothes and go out looking for the murderer. It's ridiculous. How can they find the murderer when the murderer is doing the searching? This is what the army is up to today. People try to flee to Honduras from El Salvador and one route is across the Lempa river. In March 1981 heavy fighting broke out in north of civilians tried to swim to safety. They were killed, the majority were women from machine guns mounted on helicopters. choppers were leased to the the US government. The US ORDEN who are members ORDEN is supposedly unit in the an inf- words

El Salvador so thousands were met with strong fire An estimated 200 people and children. The junta at no cost by also helped to found of the death squads. a special intelligence national guard linked to ormant network. In other people opposed to the death squads + owners of land or wealth (land owners, farm owners), people who are against the US + ORDEN are reported and they usually get tortured + then shot, sometimes this also happens to all there family too. Women & young girls are raped by whole platoons and then killed. Any subversives and anyone ORDEN don't like are tortured + killed. Then they pour either acid or other such chenicles over the peoples faces or they slash the bodies with knives and then pour petrol over the bodies and burn them. The burnt corpses are left in the street to be collected by any remaining relatives who bury there loved ones most times just wrapped up in a blanket and burried in an unmarked grave. Farms are attacked and the owner and the workers killed, tortured, burnt, scarred, slashed. Britain has a part in this too. It delivered 16 tanks to Honduras. Also El Salvadorian troops have been joining troops from Honduras to crush the popular forces. This must stop now! # SUBHUMANS / FACTION / INSTIGATORS / PHANTOMS OF THE UNDERGROUND / FREAK ELECTRIC. STATION, G/HEAD.

This has taken the place of an article i did on violence at gigs and the gig review page cos it had to be said. This is exactly what i saw and was told by other

Anyway read on and form your own views.....  
I got there at about 7-ish and there was only about 25 people in. By the time FREAK ELECTRIC came on the station was filling up. FREAK ELECTRIC suprised me cos I'd never seen them before. They use two drumers one feamale who also sings along with the guitarist. They reminded be a bit of rubbela ballet and a lot of the banshees. But then again they were quite origional really. After a short while the next band PHANTOMS OF THE UNDERGROUND took the stage and theywere excellent. I'd never seen or heard them before and I'd been told they were good. They sounded like the uk subs in places and were really heavilly influenced by 77 stle punk. by now the station had filled up a bit. Infact it was packed !!!!!!!!!!! Next on were FACTION because the INSTIGATORS had dissapeared. I've heard FACTION before cos they've got a single on BLUURG records. They started off with a few I didn't know so i took this oppotunity to rest on the front of the stage. Then they did the best one on the single, TURN AWAY. It was amazing !!! wwwooooowwwweeeeeeeeeee !!!! Then they did more songs from the single and demos. The one before last was brill but i can't remember what it was called and i even asked the guitarist at the end. IF ANYONE KNOWS WHAT IT WAS PLEASE WRITE IN AND TELL ME. It was more like the toy dolls, it really cheered me up. This was when the firsts reports of trouble came because someone had been sniffing glue in the corner. Then INSTIGATORS came on and did all the favs like OLD SOLDIERS, BEHINED CLOSED DOORS, MONKEY MAN, THE CHURCH SAYS, ALL CREATURES, UGLY PEOPLE etc etc. This was when the trouble started On one side of the stage some ignorant idiot (singer of according to friend) grabbed a mike and stand and pulled it into the crowd. He was stopped by a boy in a white shirt. Then the singer of and friends proccede to kick and punch the boy in white. Then at the end of the song sned got on the stage and said "can you all look at the bunch of idiots in the corner, have you got turds for brains or something" The INSTIGATORS stopped and the majority of the crowd started to chant 'OUT' to the idiots in the corner. Despite this the idiots in the corner were waiting for a fight. Another fight broke out and the singer of INSTIGATORS was yelling "STOP THEM FROM FIGHTING, GO ON STOP THEM" so a bunch of people went to stop it and then a bunch of people went in to cause more fights. Then a tall lad in black tried to rescue his mate. Then the singer from jumped on the lad in black and started to punch him. The lad in black got up and shouted at him why he hit him. THE Singer of backed off (they cant stand up to questions it hurts there brain (if they've got one)) and then the next thing i knew was the lad in black was on the ground in the corner with a mohicand maniak on top of him who was being restrained by a friend. Some stupid idiot was shouting "its allright he's on our side He's on our side " it made me sick, there are no sides. I was trying to get this lad out of the corner along with others so i said to this idiot "can you calm down and let him out please" he looked at me as if to say "f. off or I'll kill you" so i left. The lad in black got up and he started to tell them to get out. then suddenly a fist hit him and resulted in his brow being cut open. He had managed to stay non-violent so far but he had to be pulled away by his mates cos he lost his temper. This was understandable with stupid idiots laying into you for no reason at all. Then more fights broke out and people inc. me were yelling at people to stop the fighting but no-one was listening. Blood was splatted all over peoples clothes and faces. Then this lad got up on stage and said "lets stop fighting and watch the gig, no more fights" Everyone cheered and INSTIGATORS were getting prepared to play again but more fights broke out. This time the lad who had just been on the stage jumped in and laid into everyone including two girls (wow what a real hard man eh?????)

# ALTERNATIVE

1. Could you give us a brief history of the ALTERNATIVE and the current line-up?

The band formed in 1979 due to our strong feelings, on the political situation, we found ourselves in. The line-up grew till August 1983, then 6 people decided to get involved in other areas. Under that line-up we had a track on Bullshit 1 and we released an ep, both on crass records. We were also involved with the anarchy centre the 'Pad' in Dunfermline until its closure in April 84. This was not due to anyone involved in the pad, but the regional council forcing us out to make way for an oil company so that they may use the premises for a storage hut. We had for the last year to squat the building under their noses, which is a rare occurrence in Scotland due to much stricter laws on squatting. The pad in effect is a large part of our history. For over 2 years it was a vital meeting place and people from all over Scotland came along, not just to listen to bands but to participate in women's collectives, print collectives etc. A lot of mutual aid & trust was learnt from the pad, we hope somehow we can get the space again to set up a likewise centre. The present line-up of ALTERNATIVE is... Linda Linger/vocals-Judge Lawless/vocals-Daz/bass-Rodney Wheat@brain Rel@x/vocals guitar-Dee Warf/guitar-Jen/drums-Colin/sound ops.

2. Tell us about the peace festival, when, where, why etc?

The peace festival (PEOPLES GIG FOR LIFE) happens on the 6th of August to mark the 37th anniversary of Hiroshima where the first atomic bomb was dropped on people and claimed 200,000 lives. The gig will be donations only and any money made will go towards the fund set up for the victims of both Hiroshima and Nagasaki.

3. Will you be releasing an LP?

Yes. We have recorded an LP to be released soon on CORPUS CHRISTI records. It will be titled 'MORE SUBVERSIVE PEACE SONGS' it will have 14 tracks and will be available for £3.50p PAY NO MORE.

4. Any plans for tapes, singles?

We've done 5 dates in England with Reality Control, Direct Action and Andy T. We may be recording an ep later in the year for CORPUS CHRISTI. We'll also be releasing a live tape from the tour. The tour went under 'EAT THE RICH' Tour a ninety Eighty Fortress.

5. What has been your best/worst moment so far?

Best... When the pad opened for the first time. Worst... The Falklands war and Thatcher eventually winning the election mainly due to the Falklands nightmare.

6. What does the symbol of the un-born baby and the crucifix mean? Who drew it?

Jaa originally came up with the idea & design. The baby and the cross represent the burden that we all have suffered in the name of religious values and morality. The cross is a symbol of fear and guilt, which in effect keeps us well in line (Slaves to a ruthless and violent system). If we are to create a better world free of authority and oppression where myths and bigotry caused by religious blind faith, flourish ignorance and fear become a big obstacle in the creation of a more libertarian world.

7. Where was your best gig?

Every gig has a certain significance. In terms of actually communicating with people and getting positive feedback from it—THE BUNKER, april 83.

8. Will you ever return to the sunderland bunker?

That is a question we do not know the answer to. We'd love to, but that is up to the bunker collective to decide whether we can or not.

9. what are your favorite bands and zines?

Bands we respect are...Crass, Flux, Chumbawumba and Reality Control. These are just a few bands who we feel are very important, not because of their status in the 'Punk' ratings, but because of what they are doing. We find we have a lot of common ground with the above bands. Our musical tastes are not all that important, but to ourselves. Fanzines are many these days, a lot are very challenging, a lot are no better than the established music in terms of promoting ideas. No particular favorites.

10. who are the best band you have gigged with?

Do you mean in terms of their music, or their ideas? Music once again is not how we view it, it's a bands integrity and honesty. Bands that have these qualities that spring to mind are Toxic Shock, Crass, Annie Anxiety, Flux and Reality Control, Chumbawumba, Anti Sect, Direct Action.

11. Do you think there will ever be change on a large scale?

Back in the 60's, the hippy culture created many changes in people's lives and attitudes. Since then we have seen 'Punk', 'Anarchy', 'Feminism', 'vegetarianism', 'Anti-Vivisection' and other various factions of the 'Peace' movement grow and blossom. All of these ideals have made their mark on our lives in significant ways. More and more people are challenging various things in society and change is inevitable. The present political climate has recently outraged even the more liberal members of society. It is up to us all to challenge the imbalances that this ruthless system has created and question ALL authority. Change on a major scale will carry on escalating, if we do so.

12. Do you think C.N.D. are doing anything really positive to stop the bomb?

C.N.D. is rather liberal in their attitude. They fail to question the symptoms of having a device that can obliterate cities in seconds. Neither do they challenge the wealthier people whose grandiose lifestyle is protected by Army, Police and ultimately nuclear weapons. Conventional warfare is still acceptable by C.N.D.'s standards, yet they fail to recognise that nuclear and conventional weapons are simply extensions of the morality that created weapons for any purpose other than defence against dangerous animals. Violence perpetuates and leads to violence on a larger scale. PAIN IS PAIN. C.N.D. is often a good starting point, for an individual to move on to more radical ideals about peace and the states economic interest in war. C.N.D. arranges gatherings DEMO'S which can bring together 1,000's of people with an interest in disarmament. The majority of these people are not given the chance to participate in decisions concerning the running of C.N.D. Authoritarianism is part of the C.N.D. problem, when it is an issue they should in fact be challenging. Though some individual members of C.N.D. are against nuclear power, it is not an actual policy of C.N.D. to expose the dangers of nuclear power stations. The plutonium waste in these types of power stations is necessary for the manufacture of nuclear weapons. If we didn't have nuclear power, we wouldn't have such easy access to the killer plutonium.

13. What is the 'Punk' scene like up in scotland?

Rather an ambiguous question as it depends how you define 'Punk' really. The bands, wierd clothing and the hairstyles, or the attitude of

rejecting societies morals and values, that keep us in our place. There is bit of all these things in scotland. Lots of people are trying to create their own alternatives, though the label you define it under is irrelevant.

14. What are your views on the miners strike?

If the government didn't have such a vested interest in nuclear weapons, they wouldn't need to make such drastic moves to close the pits causing the present dispute. There is still plenty of fuel to be mined, but it would be cheaper for the government if we all switched to nuclear powered electricity. The power of the miners union (N.U.M) has always been a thorn in the governments side. The states authority and decisions on a variety of (Mainly economic) issues, has been constantly undermined by the body of larger unions. To lose disputes with the unions is not just a minor setback, it is a metaphorical kick in authoritys guts. The governments plans for mass redundancy would eventually lead to the closure of various pits, one by one. Poverty for thousands would be part of the result, should these pits close. Millions are already struggling on the dole, but compassion is not in the governments rule book, only wealth and profit.

15. What are your feelings about the new police bill?

**FEAR.....!**

16. Do you think the time has come for actions to speak louder than words?

The power of the spoken word is valuable in making your demands known. There comes a time when you have to back it up with actions. For too long pacifism and passivity have been confused. Pacifism that does not allow for the defence of an individual or the world is rather wet and liberal. If physically smashing the state is considered violent by some people, they obviously haven't considered the extent of the governments state violence against the common people of this country. The paid thugs, police and army, can legitimately terrorize and torture individuals at random or by pre-determined order/decision. If people are unwilling to defend themselves against police etc, they have fallen victim, before anyone has even hurt them. going limp while being carried off by police at demo's is no longer a feasible action. It simply makes it easier to cart off the individual in question. It is more realistic to resist, as you are not a threat to anyone locked in a cell.

17. Did you go on the stop the city demo's?

Only a few of us made it to the 2 london STC'S. Edinburgh STC we could afford to travel to, though it was a bit of a non-event, better luck next time we hope.

18. What do think the biggest problem is in our lives are at this moment in time?

The uneven distribution of wealth, cutting control of the lives of the common people is a major problem. We are bought of land, which should be everybodys to share. Most of us can rent a piece of turf to grow a few blades of grass and veg. While the rich elite's bathrooms are bigger than our back garden's. The rich are proud to flaunt their wealth, but need power and violence to protect their riches. The elite get greedier and the common people suffer, WE HAVE TO START TAKING CONTROL OVER OUR LIVES NOW: IT'S TIME TO ACT!

## THE COST OF WAR

If you think the articles in this rag are BORING then why don't you write one and send it in to me. I bet you realise its not easy. By the way it took 2 months to make this. This whole fanzine I mean, not just this article. Anyway read on.....

### THE COST OF WAR £££ SSS !

War costs lives, it also costs money. To some of you lot money is important. Infact to a few of you its more important than others lives. Anyway, the first world war cost Britain a staggering £120,707,349,878. Not to mention that the amount of people killed in the 1st world war is approximated at being nearly 23,000,000 !!!!!!! That is a lot of people & a lot of money. In addition to these deaths, more than 21,219,000 soldiers were injured, many of these men incapacitated for LIFE. The whole world had to pay this price for the ambitions of a handful of men greedy for power and prestige. This was only the 1st world war. Do you want to see it all happen again but hundreds of times worse ?? Thats whats going to happen unless you stop reading this and stand up and say you are not prepared to let them take away your life and the lives of those you love. BECAUSE UNLESS WE DO SOMETHING SOON WE WON'T HAVE A WORLD. ITS TIME FOR ACTION AND THIS TIME LETS DO IT, IN ANYWAY YOU FIND FIT.

STOP WAR

PETER MURRAY/36 WINDSOR ROAD/RUSHDEN/NORTHANTS/NN10 0BB///

MY GOOD FRIEND, PAUL SENT ME SOME STUFF ON A BAND HE'S IN CALLED 'THE SUICIDES' SO HERE IT IS. THE ADDRESS TO CONTACT THE BAND FOR INFO IS AT THE BOTTOM OF THE NEXT PAGE. READ ON.....

THE SUICIDES FORMED IN LATE 1983 WHEN DEANØ AND ANDY WERE BORED AND THEREFORE DECIDED TO START A BAND. THEY WROTE A FEW SONGS AND THEN IN EARLY 1984 (ONCE THEY HAD SUSSSED OUT WHAT WAS MISSING) DECIDED TO GET A DRUMMER AND THEN ASKED IF I (PAUL) WOULD DRUM FOR THEM SO I JOINED TO MAKE THE LINE UP.....

DEANØ - GUITAR/VOCALS  
ANDY - BASS/VOCALS  
PAUL - DRUMS

DEANØ WAS FINDING IT HARD TO PLAY GUITAR AND LEAD SINGING AT THE SAME TIME AND SO I INTRODUCED HIM TO STU (A VERY DOSY PERSON). STU JOINED ON VOCALS AND DEANØ JUST PLAYED GUITAR. WE DID TWO GIGS AND BROUGHT OUT

TWO TAPES (BOTH NOT AVAILABLE NOW). STU WAS SO DOSY HE COULDN'T SING IN TIME. SO I SANG WITH HIM AND IAN (T.O.R.) JOINED ON DRUMS. WE HAVE A TWENTY TWO SONG SET AS MOST OF OUR SONGS ARE SHORT. THE BEST OF THESE ARE: P1 BLOCK, GO FISHING, STAY BEHIND, FROGGER. WE HAVE BEEN FEATURED IN FOUR ZINES AND HAVE GOT A GIG IN THE FUTURE WITH DAN AND BLOOD SPORT (A BAND THAT PAUL DRUMS FOR) AND ALSO ALTERNATIVE TURNEY.

LINE UP.....  
PAUL/STU - VOCALS  
ANDY - BASS  
DEANØ - GUITAR  
IAN - DRUMS

\*STU HAS NOW BEEN KICKED OUT. WRITE TO..... DEANØ, 41 JEDBURGH DRIVE, DARLINGTON, Co. DURHAM.  
more info on the suicides page 16.

## THE TEMPEST

Right then, an interview with THE TEMPEST from Northampton. I wrote to alex (address above) and he sent me the reply, as simple as that. As you will have noticed, this band is different from the others in here but don't worry, not every one who likes this kind of music is like tom vague. Now read on and think about why you hate all these people like THE TEMPEST (that is if you DO hate them) as you will see, they seem a very concerned bunch of people just like you and me, the difference is in the way people put across their message, but deep down were all chasing the same dream.

# continued from page 7

ONE boy who was even smaller than me, (and I'm small) confronted a tall lad & asked him why he was fighting and if he would stop & then the tall lad hit him. It was chaos and when one of the people who runs the place stepped in to try and sort things out he was grabbed by about 5 people and he got punched etc. Then the coppers came and things calmed down and the police left. Another thing that I noticed was it was punks beating up punks. There was a fair amount of skins there but the majority of them were behaving themselves. The only good thing about this was the sight of lots of people who were trying to stop the fighting. The majority of these people were not afraid to use non-violent methods. SUBHUMAN were nearly finished packing up their gear when the fights stopped but they agreed to go on. They did go on but could only do a few cos of the fighting taking up time. The air was still a bit tense. They done about 8 songs including HUMAN ERROR, RELIGIOUS WARS, they finished with HUMAN ERROR. To top all the trouble there was a group of German kids who had probably come to see an English gig. Sadly they never saw one, who knows what they'll say to all the people in Germany. Apart from the fights it was a good gig. It's a shame it had to end this way. Give your views if you were there, write to me and I will put it in the next fanzine.
